

# 10GPON field trial

## Key steps

### Customer selection criteria

- Customers need to be part of Avondale, Birkenhead or Johnsonville exchange areas
- Customers are currently on Consumer 500 MAX or SME 500 MAX plan
- Customers are willing to provide us feedback on 10GPON, how they have used it and what benefits they have seen
- Customers that do not require a voice line

We also recommend you check how your customers will be experiencing the 10GPON technology – i.e. using devices able to support 802.11ac or have 10 Gbps interfaces.

### ACTIVITY TIMELINE
