Dear [name]

'Mix it up' Fibre Offer

We want all New Zealanders to have the best possible Broadband experience. That's why we are so focused on encouraging those 85% of Kiwis who have a Better Broadband option available to them to take up the opportunity.

As part of our work here, we have in market the 'Mix It Up' Fibre Offer. This Offer is designed to encourage you to work with us to promote better broadband options to your customers by supporting you with credits focusing on two key areas:

- *Connect to 100M or above*: migrating offnet customers and customers on existing copper and lower speed fibre connections on our network to selected fibre speed connections; and
- *Get to the Gig*: as above and upgrading existing fibre connections to our fastest fibre plan.

From time to time you can earn "bonus credits" on top of the base offer. In the first half of 2021 we're running a slightly different bonus credit offer – if you sign up and indicate your plans for driving fibre activity, you'll get paid for converting any address on our specified address list:

- to a 30Mb plan or above, and
- regardless of whether you've met the eligibility thresholds for Connect to 100M+ or Get to the Gig.

Fibre Bonus Credit

The Fibre Bonus Credit will be available from 1 May 2021 to 30 June 2021. You can participate for the full 61-day period (or any consecutive part of it) – please send us your marketing plans at least two weeks before the commencement of your chosen bonus credit period.

To qualify for the Fibre Bonus Credit, you'll need to:

- promote fibre to addresses on our target list during your chosen bonus offer period, either above the line or via direct marketing;
- fill out a template form that indicates your plans for marketing fibre; and
- convert an address on our target list. The connection must be:
 - ordered within the period 1 May 2021 to 30 June 2021;
 - for a Chorus fibre plan of at least 30Mbps; and
 - service given by 30 September 2021.

Core offer

Eligibility Thresholds

We will monitor your mix of orders received within a quarter of the Offer period to determine what credits will apply. You'll be required to meet these thresholds to qualify for credits:

- At least 85% of your orders on 100M or above to be eligible for the 'Connect to 100M or above' incentive; and/or
- At least 15% of your Gig orders (which now includes Home Hyperfibre plans) to be eligible for a 'Get to the Gig' incentive.

Credits available

- If you meet the "Connect to 100M or above" threshold you'll receive \$50 for every qualifying connection;
- If you meet the "Get to the Gig" threshold, you'll receive up to \$300 for a qualifying connection.

We'll pay you a credit contribution once service has been given. You'll need to refund any credit we pay to you on a pro-rated basis for a connection that disconnects or downgrades within 12 months of being service given.

The 'Mix It Up' Fibre Offer runs from 1 April 2019 until 30 June 2021, subject to the terms of this letter as set out in the appendix.

Sign up

If you have any questions please contact your account manager. If you accept this offer, please sign this letter and return it to us. You'll need to do so by 1 April 2021 or you'll miss out on participating in the offer. Note that we may at our discretion accept sign-ups past that date for RSPs that are new to the market.

Yours faithfully

Ed Hyde

APPENDIX

Amended Terms of the Offer

Terms of the Mix It Up Fibre Offer

The terms of the Mix It Up Fibre Offer between Chorus New Zealand Limited (**Chorus**) and you (**Offer**) are as follows:

Term

1. The Offer will commence from 1 April 2019.
2. The Offer will terminate on 30 June 2021 unless extended pursuant to clause 3 or shortened pursuant to clause 4 (**Termination Date**).
3. Chorus may extend the time period (including with reduced incentive levels at Chorus' sole discretion) or extend the scope of the Offer by giving 30 days' notice in a Customer Update.
4. Subject to clause 3, we may withdraw, or further restrict the scope of, the Offer before the Termination Date. If this occurs, we will try and consult with you and we will give you 60 days' notice unless we're required to withdraw or restrict the scope of the Offer due to an external event, in which case the notice may be shorter.

Eligibility Threshold

5. You will be eligible for the credit contributions in Part D only where you have met the eligibility thresholds set out in Part C below. The eligibility thresholds above will apply as indicated to each of the quarters making up the Offer period as follows:

Financial year 2019

- 4th Quarter (Q4-19) – 1 April to 30 June 2019;

Financial year 2020

- 1st Quarter (Q1-20) – 1 July to 30 September 2019;
- 2nd Quarter(Q2-20) – 1 October to 31 December 2019;
- 3rd Quarter (Q3-20) – 1 January to 31 March 2020; and
- 4th Quarter (Q4-20) – 1 April to 30 June 2020.

Financial year 2021

- 1st Quarter (Q1-21) – 1 July to 30 September 2020;
- 2nd Quarter (Q2-21) – 1 October to 31 December 2020;
- 3rd Quarter (Q3-21) – 1 January to 31 March 2021; and
- 4th Quarter (Q4-21) – 1 April to 30 June 2021.

Calculation methodology for core offer:

- (a) We will monitor how many fibre orders we have received from you during the 3 months of each quarter, other than the quarter starting on 1 April 2019 where we will only consider fibre orders received during the months of May and June 2019. Then we will deduct any of these orders which (i) have been cancelled up to the date on which we calculate the total order mix % or (ii) are a Modify Attribute for handover link migrations where this is no plan upgrade (**Total Orders**).
- (b) We will then calculate what percentage of the Total Orders are orders for fibre connections (i) of 100M or above, and (ii) for the Gig or above.
- (c) from 1 January 2020 we will exclude from the calculation of whether the Gig eligibility threshold has been met any upgrades from the 30M plan to the 100M plans.

Fibre Bonus Credit

6. To participate in the Fibre Bonus Credit offer an RSP must:
 - (a) Specify a timeframe of 61 or fewer consecutive days between 1 May 2021 and 30 June 2021 during which you want your connections to be able to qualify for the Fibre Bonus Credit;
 - (b) using the template provided by Chorus, submit for review a summary of planned marketing activity at least two weeks prior to the proposed start date; and
 - (c) within a week following its deployment, confirm that the planned marketing activity has been implemented and provide copies of relevant collateral.
7. During the Fibre Bonus Credit period we will provide a list identifying eligible connections. This Fibre Bonus Credit list will be:
 - (a) Provided via a secure website page; and
 - (b) Updated monthly, on or around the 10th business day of each month.
8. Subject to clause 9 below, the Fibre Bonus Credit will be paid for each Qualifying Connection under clause 10(b) below. To avoid doubt Fibre Bonus Credit payments do not require you to meet the eligibility thresholds of the core Mix It Up offer, but Qualifying Connections from the list will contribute towards meeting the core offer thresholds.
9. We reserve the right(s):
 - (a) not to pay the Fibre Bonus Credit in relation to any connections erroneously included in the Fibre Bonus Credit list (which do not meet the relevant address criteria at Part E);
 - (b) to discuss the plan submitted under clause 6(b) above with you if we believe that the scale of activity is not reasonable or appropriate with regard to the underlying purpose of stimulating incremental connection activity;
 - (c) to cap the amount payable in Fibre Bonus Credits if we believe that the scale of activity is not reasonable or appropriate with regard to the underlying purpose of stimulating incremental connection activity; and
 - (d) not to pay you any Fibre Bonus Credits if the planned marketing activity is not carried out.

Qualifying Connections

10. Qualifying Connections are those connections which either:
 - (a) Satisfy the eligibility criteria set out in Part A or Part B below (as applicable) and are ordered by you between 1 April 2019 and the Termination Date, and are service given on or before 30 September 2021; or
 - (b) have been included in the Fibre Bonus Credit list released by Chorus, are ordered by you within the period 1 May 2021 to 30 June 2021, and are service given by 30 September 2021.

How do the credit contributions to your costs work?

11. Chorus will pay a contribution to your costs to migrate customers to any of the Qualifying Connection types, as set out in Part D (for the core offer) and Part E (for the Fibre Bonus Credit) below.
12. If during the Offer period an address to which you provide service qualifies as a Qualifying Connection from upgrading more than once, we will pay only one credit contribution for that address, being the one at the highest level of contribution.

How will the credit contribution to your costs be applied?

13. *Core offer:* at the end of the relevant quarter we will identify whether any of the eligibility thresholds have been met and if so, the connections that have qualified as a Qualifying Connection. We will pay an amount equal to the value of the aggregated credits applicable to those Qualifying Connections as set out in clause 10-11.

14. *Fibre bonus credit*: we will assess at the end of each month the number of Qualifying Connections under clause 10(b) and will pay an amount equal to the value of the aggregated credits applicable to those Qualifying Connections.
15. We will let you know if there are any changes to the way the credits are applied.
16. Once any eligibility threshold is met, we will monitor the cancellation rate for orders which were taken into account in establishing that the threshold has been met. If the cancellation rate means the eligibility threshold is no longer met, we may require you to repay either:
 - (a) the full credit contribution for each Qualifying Connection we have paid to you under this Offer; or
 - (b) where the threshold met reduces from, for example, Threshold 2 to Threshold 1 in relation to the Get to the Gig eligibility threshold, the difference between the incentives payable for Threshold 2 and Threshold 1.
17. Once a Qualifying Connection is service given, we will monitor the network status of the address of the Qualifying Connection. If a Credit has been paid to you in relation to such a Qualifying Connection and that Qualifying Connection is:
 - (a) downgraded to an alternative broadband connection on our network at any time during the Repayment Period; or
 - (b) disconnected from our fibre network at any time during the Repayment Period,then in each case we may require you to repay the full credit contribution or part of any credit contribution we have paid to you under this Offer as set out in Part F below.

For the purposes of this clause 17, the **Repayment Period** means for any Credit paid to you in relation to a Qualifying Connection, the 12 month period from the date of service given.
18. We may set off any amount that you owe to us (whether under the terms of this Offer or otherwise) against any amount payable by us to you under the terms of this Offer. We will let you know if we set off any amounts in accordance with this clause 18.

Conditions

19. By accepting the Offer, you agree that:
 - (a) If the volume of your orders increases at any time over the Offer period above your BAU levels by more than 50% (**BAU Limit**) for a reasonably sustained period, you agree any orders above this BAU Limit will be managed as if they are being made as part of a Bulk Service Request under the Reference Offer. We will notify you as soon as we become aware the BAU Limit has been reached (**BAU Limit Notice**) and, as soon as possible after the date of the BAU Limit Notice, you will provide us with a forecast of the volume of orders anticipated over the remainder of the Offer period. Clause 16.2 of the Operations Manual for Bitstream Services requires forecasts 3 months in advance for Bulk Service Requests. If we give you a BAU Limit Notice under this Offer, we acknowledge you will not be in breach of this obligation;
 - (b) You will make any repayments we require from you in accordance with clauses 17 or 18 (**Repayments**). Nothing in this clause precludes you from disputing any Repayments under the applicable relevant terms identified in clause 21.
 - (c) If, in Chorus' reasonable opinion, you are not complying with any of the terms of the Offer (including where you are not making a genuine attempt to stimulate incremental fibre activity in respect of the Fibre Bonus Credit), Chorus may at any time and from time to time do any or all of the following:
 - (i) meet with you in good faith to discuss our concerns and what you are doing to comply;
 - (ii) escalate the issue within Chorus and your company for discussion in good faith;

- (iii) suspend the credit contribution and/or transaction credits until the issue is resolved; and/or
- (iv) terminate this Offer by 30 days' written notice to you.

For the purposes of this clause 19(c), "**good faith**" means the need to work together in an open, co-operative, honest and fair manner, provided that nothing prevents a party from acting in its own self-interest.

Exclusions

20. The Offer only applies to orders or transaction types set out in Parts A, B and E (as applicable) below and will not apply to any other orders including (but not limited to) the following:

- (a) Bitstream 3 or 3a service;
- (b) Bitstream Services 2/ 2 Accelerate plans less than 100M (for the core offer only) and any SME business plans;
- (c) Any new connects or upgrades to the Bitstream Services 2 Accelerate at 200M;
- (d) Any upgrades from any 200M plan to the Consumer/SME Max plan;
- (e) Any new connects or upgrades to a secondary plan;
- (f) Any upgrades from any secondary plan to a primary 100M or Consumer/SME plan;
- (g) Any new connects or upgrades to the Gigatown plans;
- (h) Any migrations from Gigatown plans to any plan where these have been counted toward the eligibility thresholds in the first quarter (Q4-19);
- (i) Any orders received as Modify Attributes;
- (j) Any fibre plans ordered at Smart Locations; and
- (k) Any addresses where there is a current business legacy service on the Chorus Network.

No transaction or transfer charges are waived under this offer.

[Note: The exclusions above apply to limit both those orders which may be considered in relation to the eligibility thresholds and as Qualifying Connections eligible for payment of credit contributions.]

Application of relevant terms

21 .Except as expressly provided under this Offer:

- (a) the Basic VDSL Amended Factsheet terms (which in turn adopts UBA STD terms);
- (b) the UBA STD;
- (c) the UFB Reference Offer;
- (d) the Next Generation Access (NGA) Residential Install Offer; and
- (e) the UFB Business Install Offer,

each continue to apply to Basic VDSL, UBA, and fibre services (as applicable).

See Parts A to E **below**.
