

The installation process

Training videos for consumers

Embed our fibre install videos to your website, to help explain the process

To make the fibre installation process easier, we've developed a series of short videos to explain the entire process. You can use these videos in your website or send links to it, for your customers.

Please let us know if you're going to use our videos in your website. If you need the videos in any other format [email us](#).

Installing fibre in a single dwelling unit
