# 1. Pole Sharing - Fact Sheet

**WE CAN SUPPORT YOU TO BUILD A NETWORK THAT OPERATES WHERE YOU NEED IT AND WORKS HOW YOU WANT IT TO.**

Our Pole Sharing service can supplement your network and assist you to complete your network and deliver telecommunications services to your customers. The Pole Sharing service provides space on a Chorus Pole for you to attach your service leads to: cross a street; and provide telecommunications services to up to four end user premises.

## 1.1. Benefits

---

Using our Pole Sharing service you can:

Reduce your deployment complexity

Deliver services to customers more quickly

Reduce your capital investment

## 1.2. How it works

---

Pole Sharing provides access to a Chorus Pole for accredited personnel and the use of space on the pole to install, maintain and use your service leads to provide telecommunication services to customers.

## 1.3. Availability

---

Chorus has a nationwide pole network available for Pole Sharing. If a pole upgrade is required to facilitate Pole Sharing (either a taller pole or a stronger pole) additional costs will apply.

## 1.4. To find out more

---

Please contact your Chorus account manager for more information.
