

Unbundled Bitstream Backhaul Performance Report

Consolidated – January 2010

Introduction

UBA Backhaul Performance Reports are prepared each month to provide a comprehensive view of our provisioning, fault management and operational support system performance. The report measures our performance against service levels defined in the UBA Backhaul Standard Term Determinations.

Executive Summary

This Service Level Performance Report has been prepared for the month of January 2010.

There was one Service Level Default this month: SL 1 (Orders acknowledged within four business hours of receipt). The Service Level Default Report for this Service Level can be found in the appendix of this report.
