

UBA Performance Report

Consolidated Report

December 2014

Unbundled Bitstream Access (UBA) Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UBA Standard Term Determinations.

Executive summary

There were two Service Level Defaults this month: SL 7 (Meet notified expected RFS date), SL 10 (Change to RFS Date), Service Level Default Reports for these Service Levels can be found in the appendix of this report.

Points to note

Orders may have been excluded from Service Level calculations where the default was the direct result of an action that is the Access Seeker's responsibility under the UBA Standard Terms Determinations

Further Information

If you have queries, please email your Chorus Account Manager.
