

Unbundled Copper Local Loop Performance Report

Consolidated Report

February 2010

Unbundled Copper Local Loop (UCLL) Performance Reports are prepared each month to provide a comprehensive view of our performance over the preceding month. These reports measure our performance against service levels defined in the UCLL Standard Term Determinations.

Executive summary

There were two Service Level Defaults this month: SL 2 (Notification of rejection); SL 4 (Order is completed right first time). Service Level Default Reports for these Service Levels can be found in the appendix of this report.

Points to note

Orders were excluded from Service Level calculations as follows:

- SL 2 (Notification of Rejection) - orders were excluded where the default was the direct result of an action that is the Access Seeker's responsibility under the UCLL General Terms
- SL 4 (Right First Time) - those faults not reported within 5 working days of completion or where no fault was found for which Chorus is responsible, were excluded from this measurement
- SL 15 (Faults restored within notified expected restoration time) - those faults reported where no fault for which Chorus is responsible was detected, and those defaults that occurred as a result of inability to access the end-users premises were excluded from the measure

Defaults that occur at the Access Seeker level but not at the consolidated level are reported to the relevant Access Seeker, in their individual report.

Further information

If you have queries, please email your Chorus Account Manager.

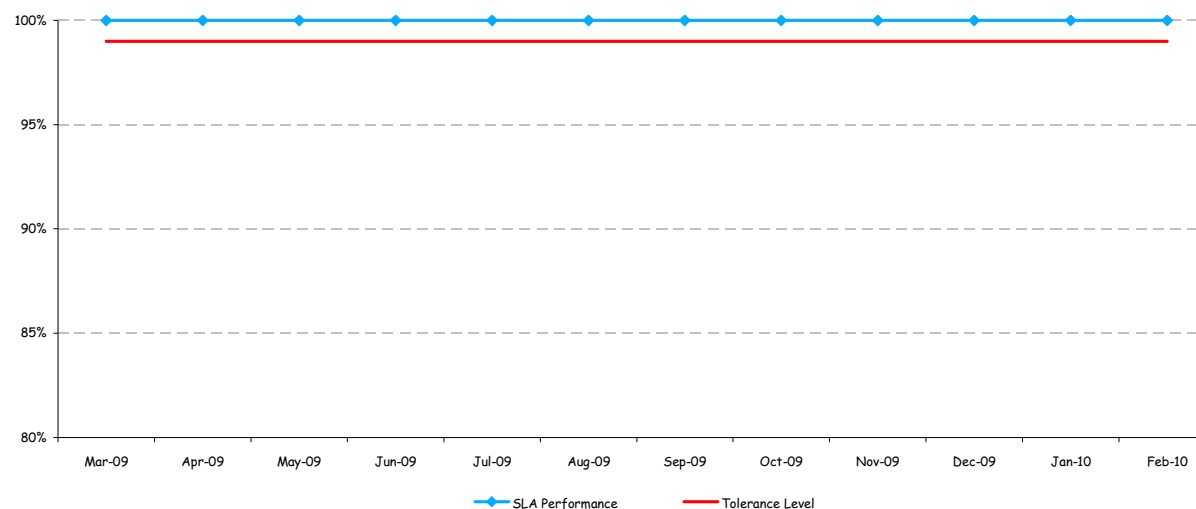

Provisioning UCLL services

February 2010

This section covers UCLL provisioning service, including ordering, notifications, and outages.

SL 1 - Orders acknowledged within four consecutive business hours of order receipt

Commentary

Performance has exceeded the required tolerance level

Full explanation of terms used in this report

February 2010

Note: Chorus has summarised the relevant Service Levels for the purpose of this report. For the full description of each relevant Service Level refer to Appendices 1 and 2 of the UCLL Service Level Terms (UCLL Standard Terms Determination Schedule 3) which is available on the Commerce Commission's website at www.comcom.govt.nz.

Provision of UCLL Service

- SL 1 Percentage of UCLL orders acknowledged within 4 consecutive business hours following receipt of the order
- SL 2 Percentage of rejection notifications for invalid UCLL orders sent to the access seeker within 4 consecutive business hours following receipt time
- SL 3 Percentage of notification of expected RFS dates sent to the access seeker within 6 consecutive business hours of the deemed acceptance time
- SL 4 Percentage of UCLL orders that experienced no faults in work carried out to provision an order within 5 working days following confirmation by Telecom of completion of the order (Level A)
- SL 5 Percentage of UCLL orders completed by the notified expected RFS date (Level A)
- SL 6 Percentage of MPF relinquishment orders completed by the notified expected RFS date
- SL 7 Percentage of pre-qualification orders acknowledged within 4 consecutive business hours following receipt of order
- SL 8 Percentage of pre-qualification order completion acknowledgements made within 4 consecutive business hours following receipt of an authorised or unauthorised automatic pre-qualification order and percentage of pre-qualification order completion acknowledgements made within 6 working days following receipt of an order for a special manual pre-qualification investigation or manual line test
- SL 9 Percentage of notification of RFS date changes provided to access seeker within 6 consecutive business hours following receipt of the requests to change an existing order
- SL 10 Percentage of confirmation of completions of order provided to the access seeker within 4 consecutive business hours after the order has been completed
- SL 11 Percentage of planned outage notifications advised to the access seeker at least 5 working days before the planned outage occurs
- SL 12 Percentage of unplanned outage notifications advised to the access seeker within 2 hours on a 24x7 basis of telecom discovering or receiving notification of the unplanned outage

Fault management for UCLL Service

- SL 13 Percentage of fault report receipt acknowledgements provided to the access seeker within half a fault restoration hour of the fault being reported
- SL 14 Percentage of notifications advising the expected restoration time sent to the access seeker within 8 fault restoration hours of the fault being reported
- SL 15 Percentage of faults restored within the notified expected restoration time (Level A)

Telecom forecasting for UCLL Service

- SL 16 Percentage of written rolling 3-year cabinet forecast reports provided to the access seeker within 10 working days of the 6 month anniversary of the 07 November 2007

Operational Support Systems for UCLL Service

- SL 17 Percentage of OO&T availability to the access seeker
- SL 18 Percentage of OFM availability to the access seeker

UCLL Service Level Default

February 2010

Item No.	2	Tolerance Level	90%
Service Attribute	Notification of rejection - Other Service to Transfer and Move Address		
Cause of default	A system fault caused high volumes of orders to fall out for manual provisioning. This caused delays in validating information supplied by customers, and hence delays in rejecting those orders where the information supplied was not valid.		
Procedure for correcting default	Notification of rejection has taken place.		
Steps taken to remedy default	A fault has been logged and this was resolved in late February.		
Effectiveness of steps taken	The fault has since reoccurred and is currently under investigation and being monitored to determine the cause.		
Date of previous defaults	July 2009, November 2009, December 2009		

UCLL Service Level Default

February 2010

Item No.	4	Tolerance Level	90%
Service Attribute	Order is completed right first time - Move Address		
Cause of default	Root cause analysis was carried out which identified workmanship errors by Service Technicians during the MPF Jumper process.		
Procedure for correcting default	A fault ticket has been raised and service has been restored, in each instance		
Steps taken to remedy default	Analysis has been delivered to the Quality Assurance (QA) team to provide coaching and feedback. QA is a core focus of our new service company contracts, which will give greater attention to work being right the first time.		
Effectiveness of steps taken	Additional training and QA work have improved performance against this Service Level, but continued efforts are required to ensure this Service Level is achieved consistently.		
Date of previous defaults	September 2009, October 2009, November 2009, December 2009, January 2010
