

Ordering Tie Cables

Tie cables are ordered when you need to connect between footprints, or from your footprint to the MOFDF Drawer

Orders for Exchange Space Tie Cables are placed in Wireline. You will need to attach a request form to your order. It is recommended to complete the request form before placing your order.

<https://www.wireline.co.nz/>

Login with your user name and password.

Select the Layer 2 dashboard

Select Order Entry, and then Generic Orders

Skip to Section 3 – Intra-Exchange Tie Cable: Fibre and Copper Connections

3. Intra-Exchange Tie Cable: Fibre and Copper Connections	
Complete this section to specify tie cabling between other Chorus Co-location customers	
Specify Footprint or MOFDF drawers to be Interconnected * If to any existing footprints specify Footprint IDs:	
Confirmation of Inter-connection Authority¹	<i>Provide Reference or 'N/A' (see note 1)</i>
Chorus to Supply Tie Cables * (Y/N)	
If Service Provider Supplied: Provide Expected Delivery Date * (Chorus will supply delivery address in Build Specification)	
Specify Quantity, Type and Spec of Tie Cables required for each Footprint Interconnection * (See Note 5)	
Specify Any Other Requirements	
Notes: <ol style="list-style-type: none">1. Service Provider must provide confirmation of approval from any other Service Providers for inter-connect to Ancillary Backhaul, existing Points of Presence or Aggregation Nodes within the same exchange2. Chorus will supply all optical interconnections (incl. fibre patch cords(pigtails) and connectors) between Internal Footprints through its exchange fibre distribution systems (IOFDFs, MOFDFs) unless otherwise requested and at Chorus' own discretion (as per note 3)3. Service Providers may provide their own fibre patch cords (pigtails) if so desired. Please indicate4. Service Provider Tie Cables must meet the specification ASD-002 Chorus Tie Cable Specification5. Specify: Type Copper/Fibre, Simplex/Duplex, Cable to terminate on fibre jumper/connector, Multimode (OM3)/Singlemode, ST / SC / LC / Other cable, Length of tail to be left at termination point.	

Field	Description
Specify Footprint or MOFDF Drawers to be interconnected	Tell us where you need the cable/s run to and from. EG FP125 – FP137, FP125 – MOFDF
Confirmation of Inter-connection Authority	If you are connecting to another RSP's backhaul, point of presence, or aggregation node we need to see approval from that RSP
Chorus to supply Tie Cables Y/N	Yes – we will supply the cables N – you will supply the cables

If Service Provider supplied: provide expected delivery date	If you answered no above, let us know when your cables will be ready. We will advise where they need to be delivered to
Specify quantity, type and spec of tie cables required for each interconnection.	If we are supplying the cables, tell us how many, where the cable is to terminate, connector type to be left on the end, multimode or single mode, length to be left at the termination point etc.
Specify any other requirements	Let us know of any other details

Save the Request Form.
